6th Global Economic Summit 2017

WOMEN'S EMPOWERMENT: Entrepreneurship, Innovation & Capacity Building

Women represent half of the world's population, and against the backdrop of the Sustainable Development Agenda 2030, it becomes imperative to work towards women empowerment. Having recognized the contributions made by women in business and economic growth, world leaders must come together to formulate policies to address women's issues in various strata of society across regions for inclusive growth. Aligned with the United Nations Sustainable Development Goals (SDGs) and UN Women's Empowerment Principles (WEPs), the 6th edition of the Global Economic Summit focuses on Women's Empowerment in the social and economic spheres.

The Summit under the theme 'Women's Empowerment: Entrepreneurship, Innovation & Capacity Building' will discuss achievements of women in diverse fields. The deliberations will include relevant issues pertaining to women's empowerment such as leadership, economic and social entrepreneurship, SMEs, skill development, financing and the role of governments, multilateral institutions and stakeholders at national and international levels.

The Summit will also provide an insight into how diverse businesses around the world are implementing WEPs and striving to achieve the new SDGs, set forth in the 2030 agenda.

Conference

The three-day Summit will deliberate and showcase diverse facets of women in various socio-economic spheres. The event will set out a roadmap for future action plans and programmes to encourage women's participation in the economic development process.

Discussion Topics

- Women achievers and glimpses of their success stories
- National policies and international programmes supporting women's participation in the socio-economic milieu
- Opportunities and challenges faced by women entrepreneurs in the global market place
- Skill development for economic inclusion
- Role of intermediaries in the development and upliftment of women
- Value addition to businesses: The role of women in global value chains
- Women's contribution to the SME sector through entrepreneurship and innovation
- Women's Empowerment Principles: Goals and Achievements
- Women in the informal economy
- Role of NGOs in capacity building

Exhibition

An exhibition will be held alongside the Conference. This will involve participation of women representing a wide range of businesses, SMEs, institutions and NGOs.

The exhibition will showcase products and services reflecting the accomplishments of women entrepreneurs and innovators across health and wellness, arts and crafts, textile and apparel, household items, banking and insurance services, women clusters, livelihood intervention programmes, educational institutions, social entrepreneurs and NGOs.

Summit Handbook on Women's Empowerment

A Summit Handbook on 'Women's Empowerment' will feature a compilation of research papers, case studies, success stories, articles, interviews, reports and analysis on various perspectives, approaches, good practices, in promoting empowerment, innovation and entrepreneurship.

Business-to-Business Meetings & Networking

Another key highlight of the Summit will be pre-arranged business-to-business meetings (B2B). It will provide opportunities to new generation and established women entrepreneurs to interact with new partners and collaborators with a view to expand their businesses both domestically and globally.

The Summit will also provide ample networking opportunities for women at the conference, exhibition and cultural evening to engage in meaningful dialogues with a view to advance their business acumen and competitiveness.

Awards

The Summit will also feature an Award Ceremony to felicitate women who have done exemplary work and contributed to the ethos of their generation, in their chosen fields and have brought about significant change to the socio-economic condition of their communities.

Visits to women-owned and managed enterprises

Field visits will be arranged to select enterprises owned and operated by women entrepreneurs, to get a first-hand experience of their aptitude and skill.
